# fresh roasted coffee

- Fresh roasted coffee from carefully selected coffee beans.
- Coffee beans are roasted in a local roaster, with great attention to quality and taste.
- Perfect for espresso and coffee served with milk (cappuccino, latte). The coffee can be brewed in espresso machines, pour-over coffee makers and in a classic way.

## BRASILIA

Coffee beans of the highest quality Brazilian Arabica (100%). Thanks to its mild, harmonious and balanced taste, it is excellent at any time of the day. This exceptional coffee with aromatic sweet taste and slight hints of nuts and chocolate is appreciated by even the most demanding coffee lovers.

**Origin** - Brazil  
**Type** - 100% Arabica (Brasilia Santos)  
**Roast profile** - medium  
**Aroma** - sweet  
**Flavour** - chocolate and nuts  
**Acidity** - medium

272100 whole bean coffee 1 kg

272112 ground coffee 250 g

## NAPOLI

Dark roasted Arabica beans (100%) are preferred particularly in southern Europe countries. The coffee is characterized by strong taste and intense aroma of hot chocolate. It has an exceptional aromatic taste of cocoa, dark chocolate and nuts. Perfect base for coffee served with a large amount of sugar and milk e.g. latte.

**Origin** - Brazil  
**Type** - 100% Arabica (Brasilia Santos)  
**Roast profile** - dark  
**Aroma** - intense, dark chocolate  
**Flavour** - cocoa, dark chocolate and nuts  
**Acidity** - low

272102 whole bean coffee 1 kg

272114 ground coffee 250 g

## AMSTERDAM

By mixing high-quality Arabica coffee beans (40%) with Indian Robusta (60%), the bitterness of Robusta is softened and enriched. This coffee is characterized by intense taste and aroma. It has higher caffeine content, which makes it perfect for early-morning espresso.

Exceptional coffee with prevailing nutty and chocolate flavour accompanied by noticeable bitterness. Perfect for espresso and coffee served with milk (cappuccino, latte).

**Origin** - Brazil, Ethiopia, India  
**Type** - 60% Robusta (India Cherry) and 40% Arabica (Brasilia Santos and Ethiopia Djimmah)  
**Roast profile** - medium  
**Aroma** - delicate with slight hints of roasted nuts  
**Flavour** - chocolate and nuts, light citrus overtones  
**Acidity** - low

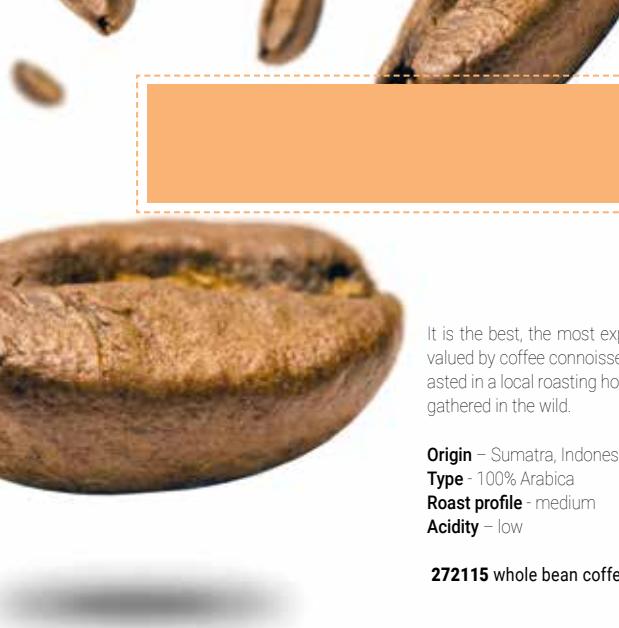

272101 whole bean coffee 1 kg

272113 ground coffee 250 g

fresh roasted coffee

### KOPI LUWAK

It is the best, the most expensive and the rarest coffee in the world, highly valued by coffee connoisseurs. It is imported directly from Indonesia and roasted in a local roasting house. Our coffee is 100% original with coffee beans gathered in the wild.

**Origin** – Sumatra, Indonesia

**Type** - 100% Arabica

**Roast profile** - medium

**Acidity** – low

**272115** whole bean coffee 100 g

fresh roasted coffee

# ZERO MAX folders

## STOP WASTING SPACE

### Lever Arch File

It occupies fixed space, which means that „air“ is often stored

### File zero max

It occupies the exact space taken up by the stored documents

## SPACE SAVING

= 500 sheets

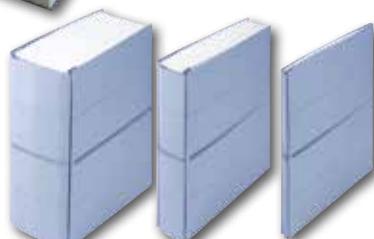

= 800 sheets

## ECONOMY

## ECOLOGY

Synthetic materials used in production

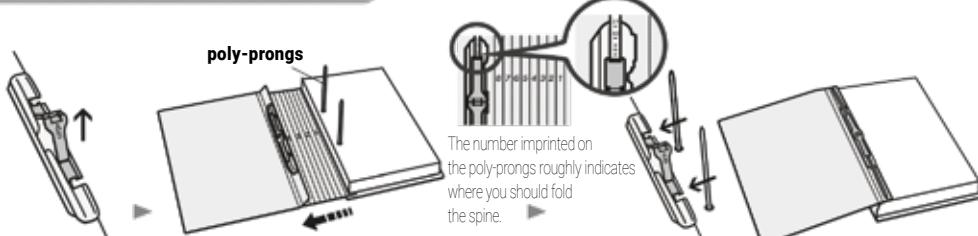

Made of recycled materials

High Capacity Expandable File

# ZERO MAX

UP TO  
800  
SHEETS

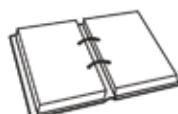

### HOW TO EXPAND

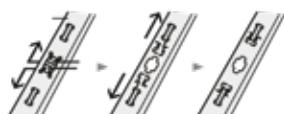

1. Pull up the yellow finger grip open.

2. Expand the spine according to the number of sheets, then load the sheets in place.

3. Insert the poly-prongs into the fastener side. Now simply push down the yellow finger grip to lock.

To make it easier to turn the pages and read the document, allow some leeway on the poly-prongs when setting the yellow finger grip.

To hold more than 800 sheets, release the hooks in the center on the backside on which the poly-prongs are set, and move poly-prongs in the opposite direction to the binding margin.

A. Follow the 2 steps below for detaching the fastener from the file  
1. Detach the fastener from the protrusions by inserting a coin between the fastener and the paper cover underneath.  
2. Detach the fastener from middle protrusions by inserting your fingers beneath the fastener and pull it upwards.  
B. For detaching the poly-prongs, simply pull out the hook portion in the direction as illustrated.

# ZERO MAX folders

## INNOVATIVE PRODUCT

Expandable folder with poly-prongs. A modern alternative to traditional lever arch files. It stores up to 800 sheets of paper (twice as much as a standard lever arch file). The Zero Max system, with its expandable spine, can adjust its volume depending on the number of documents inside. In case of storing few sheets, the file keeps its narrow spine, i.e. does not create „dead space”. Made of recycled materials. Suitable for storing documents in sheet protectors.

**SAVE MORE SPACE!**  
Adjustable width of the spine  
*max 10 cm*

- hexagon-shaped cork board
- to be arranged in any configuration
- self-stick adhesive tape included
- side length: 130 mm

110568

110221

## magnetic whiteboard eraser Mouse

- made of elegant ABS material
- shaped like a computer mouse
- perfect quality of the wiping layer

- made of ABS plastic
- for magnetic boards and other metal surfaces
- markers are not included

110217

dimensions: 65 x 105 mm

## magnetic marker holders

110259

dimensions: 130 x 150 mm

# desk mats, plastic archive clips

## desk mats

- size 500 x 700 mm
- non-slip adherent layer
- rounded corners
- transparent; important documents may be put underneath

**009914**  
→ stiff, made of 600 mic transparent PP

**110106**  
→ flexible, made of 600 mic transparent PVC

## plastic archive clips

- plastic clip with longer filling fasteners 120 mm
- thanks to its special lock it is extremely easy to use; the lock secures the clips against opening

- plastic clip with filling fasteners 85 mm
- easy transferring of documents from any arch file onto the clip

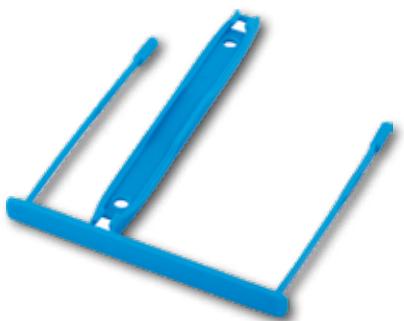

**208089**

**120 mm**

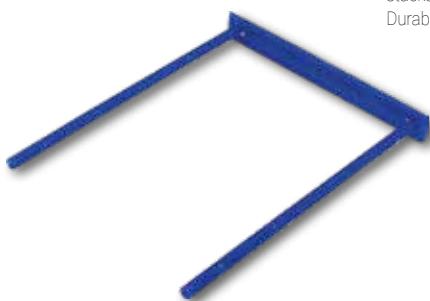

**110632**

**85 mm**

## metal archive clip

Very useful archive clip. **By using this clip you can remove the contents of a lever arch file within 15 seconds!** Documents may be copied and scanned without removing them from the clip. It compiles stacks of documents up to 500 sheets. Perfect for compiling documents stored in archiving boxes. Durable material – the tube does not break even if it is folded 300 times.

**1.** Transferring documents from the lever arch file to the clip

**2.** Locking the clip

**3.** Documents may be read and copied easily

**4.** Perfect for documents stored in the archiving box

# microfiber cloths, cleaning accessories

## multi-purpose microfiber cloths

- set of 5 microfiber cloths in different colors
- for easy wet and dry surface cleaning
- leave no streaks
- set equipped with a hanging hook

- dimensions: 30 x 30 cm or 40 x 40 cm
- material: 80% polyester, 20% poliamid, 230 g/m<sup>2</sup>

**112071** 30 x 30 cm, 5 pcs  
**112072** 40 x 40 cm, 5 pcs

6
48

- for TFT/LCD screens (e.g. laptops and flat screens), PDA, mobile phones, game consoles, screen-free filters, OHP screens and all treated and untreated glass surfaces e.g. mirrors, microfilm reading screens and lenses
- before application, refer to the manufacturer's cleaning instructions

## note pads

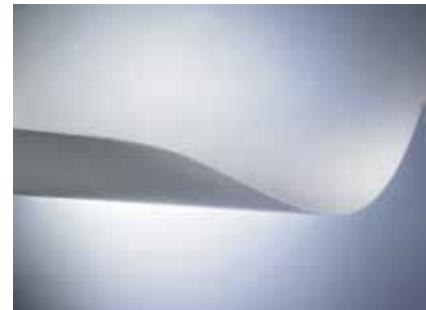

# chair mats

## PERFECT FOR HOME AND OFFICE!

Polycarbonate, highly transparent, non-yellowing floor mats provide the best floor protection for any home or office space. Hard floors as well as carpets covered by a mat are protected from wear and tear caused by moving chairs or heavy objects. They muffle the sound of chair wheels. When the floor mat is placed under flowerpots, it protects the floor from dirt and moisture. Rounded corners prevent from tripping. Mats are suitable for underfloor heating, durable and resistant to damage in accordance with DIN EN 425 for Personal protective equipment.

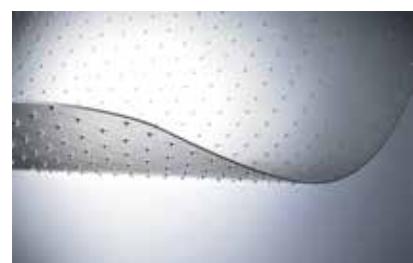

Index	Size (mm)	Shape	Color

# scissors

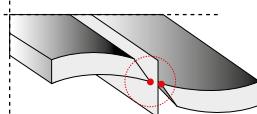

## 3D scissors

- innovative 3D concave inner blades technology
- closer contact point between the blades
- reduced frictional resistance between blades and objects
- cut paper more than 300 000 times and still keep sharp
- ergonomic PP+TPR handle
- comfortable, cushioned rubber finger loops
- soft-grip finger rest for controlled handling

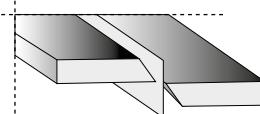

12  
144

### 3D blade

### Ordinary blade

## 3D scissors 175

- total length: 175 mm

110112

## 3D scissors 175T

- total length: 175 mm
- blade surface resistant to the adhesion of adhesive tape or glue

110114

## 3D scissors 210

- total length: 210 mm

110113

## fitcut curve scissors

- scissors with specially curved blades
- optimum blade-to-blade angle is maintained due to specially curved blades that can firmly catch target
- light, clean cutting possible from the lowest point to the tip of the blades
- specially finished sharp-edge blades produce low friction, smooth cutting through object even along curved lines
- thick grips of double-layered soft material reduce the pain of pressing them
- longer lifespan
- total length 174 mm
- anti-skid handles

## titanium-coated SC-175STN

- cap included
- the blade edge coated with high hardness titanium is rust-resistant and remains sharp for over 500 000 times of cutting (durability 30 years!)

# correction tapes

## PLUS corrector features

By pushing or pulling, you can make your corrections more precise. Pulling is best for longer corrections, such as full sentences. Pushing works well when you want to correct a single word or a letter.

2 WAY

Equipped with a unique, highly adhesive correction tape (it even sticks to glass and other smooth-surface materials) of two years warranty.

HD TAPE

### correction tape WH-034 4,2 mm x 6 m

205016

#### smooth torque mechanism

The newly added limiter solves the problem of loose adhesion or flakes which sometimes occur at the end of a tape section. Tape dispensing is now even more smooth.
